

244 Bariatric Treatment Table

Safe and Efficient Care for Your Patients, You and Your Staff

850-pound Weight Capacity - With an 850-pound patient weight capacity, the Ritter 244 Barrier-Free® Bariatric Power Treatment Table is ready, willing and able to safely lift special needs patients every time.

Barrier-Free® Accessibility - With an incredible 18-inch low height, the Ritter 244 is designed to safely and effectively get your special needs patients onto and off of the treatment table with minimal assistance.

The high seat height of 34 inches is designed to raise the patient to a comfortable working height, helping minimize stress and strain on your back.

The Ritter 244 features a 32-inch wide seat to help improve patient comfort and support. The seamless upholstery design looks great and offers an easy-to-clean surface.

With an ergonomic and intuitive hand control, patient positioning is simple and efficient.

The optional adjustable arm system accessory is designed to offer a sense of security for patients and a stable, secure platform to assist them in getting onto and off of the table.

Optional Foot Control

18" Low Height
34" High Height

Optional casters can support 650 pounds (but should not be used to move patients).

*Product shown with optional adjustable arm system accessory.

Fully Powered, Multi-Position Movement
Fully powered height adjustment, powered back and tilt, and angle adjustments are designed to allow for a thorough examination and safe positioning. Safety switches in the base section stop the table from moving if a slight amount of force is applied to the base cover.
